# Citations to IEEE Journals Continue to Climb

Each year, the Journal Citation Reports™ (JCR) from Clarivate Analytics examines the impact of scholarly journals by determining how often a journal's articles are cited by later research.

According to the most recent report, IEEE publishes:	
24 of the top 30 journals in Electrical and Electronic Engineering	
23 of the top 30 journals in Telecommunications	
9 of the top 20 journals in Computer Science, Artificial Intelligence	
5 of the top 10 journals in Computer Science, Information Systems	
3 of the top 5 journals in Automation & Control Systems	
3 of the top 5 journals in Computer Science, Cybernetics	
3 of the top 5 journals in Computer Science, Hardware & Architecture	

The JCR ranks journals by their Journal Impact Factor™, defined as the average number of times articles published in a specific journal in the previous two years were cited in a particular year.

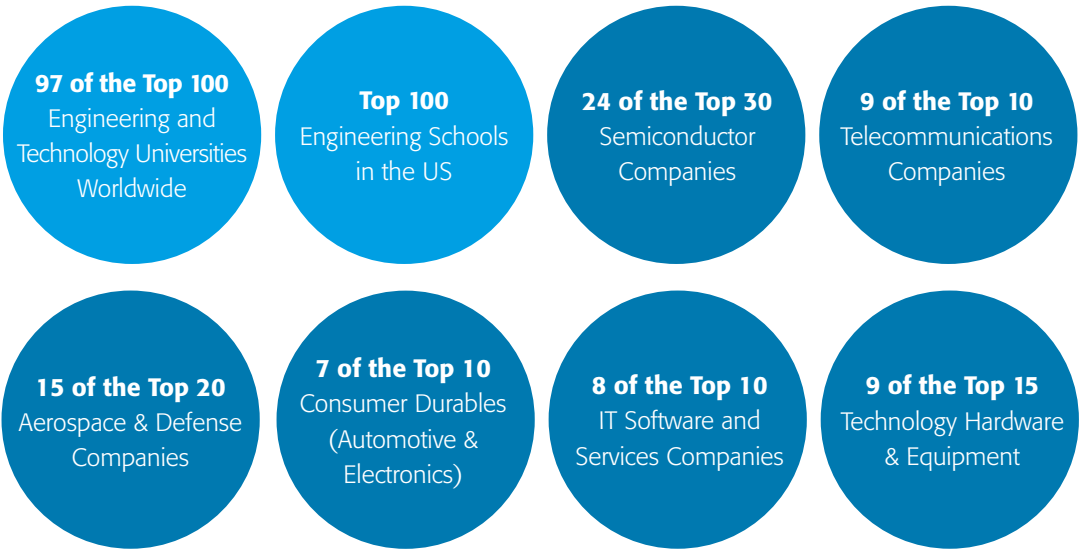

Additionally, in the most recent CiteScore™ report by Scopus, multiple IEEE publications were consistently listed among the most-cited journals in multiple categories, including 8 of the top 20 journals in Electrical Engineering. IEEE journals also ranked No. 1 in categories such as Electrical Engineering, General Computer Science, and more.

# IEEE *Xplore*: Delivering Innovative Research Better than Ever

The IEEE *Xplore* Digital Library delivers IEL to users' computers or mobile devices. Just as the content within IEEE *Xplore* grows each year, the platform is also continuously upgraded to enable users to easily find and discover the solutions they need. Following are some recent and upcoming enhancements to the platform.

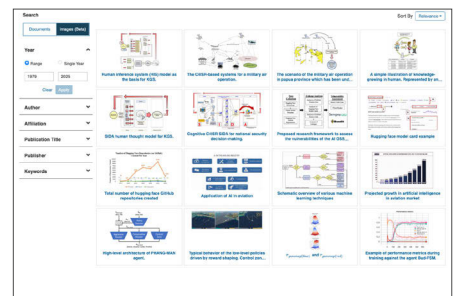

## Journal Homepage Redesign

Several updates and enhancements to the journal homepages have been released to provide a more streamlined, modern, and user-friendly experience for customers, including a custom module for the About Journal section, journal covers for past issues, updates to the related journal interface, a prominent display of key data such as Article Processing Charges (APCs), and improved navigation of title history.

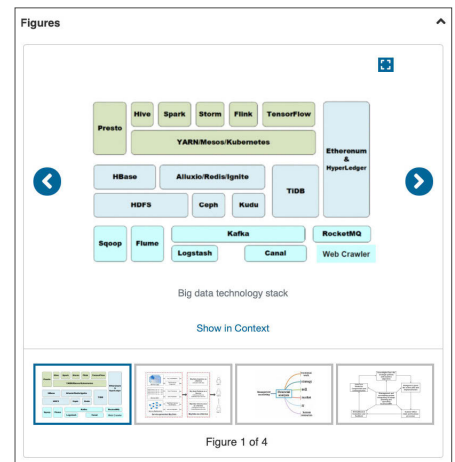

## Image Search

For IEL subscribers only, this new feature produces relevant search results of images, graphics, charts, schematics, flowcharts, and more from journal articles and conference papers, helping users to better understand important research details through visuals.

## Redesigned Figures Section on Document Page

The redesigned figures section of the document detail page provides an easy way for readers to quickly navigate through images in an article.

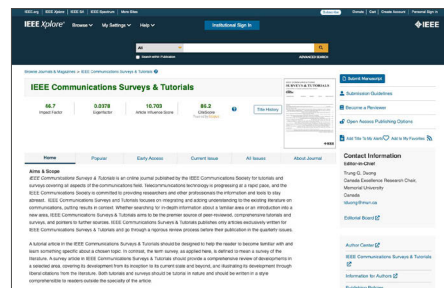

## Improved Labeling for IEEE Standards

IEEE Standards in IEEE *Xplore* now include an indication of the most recent version of that standard as well as improved navigation of the version history.

## Addition of Scopus® CiteScore to Journal Homepages

Users can now see the Scopus CiteScore for an IEEE journal in addition to the Journal Impact Factor™, Eigenfactor®, and Article Influence Score®. CiteScore is a measure reflecting the yearly average number of citations in the Scopus database to articles published in the preceding four years.

## Discover Trending Content

Users can discover new and trending content by browsing the top search terms, matching documents, and popular content features linked from the home page. Users can also sort search results by “most popular” to see the most frequently accessed documents.

## EPUB Format for Select eBook Collections

An EPUB file (also known as electronic publication) is a file format that enables eBooks to be downloaded and read on a variety of devices such as smartphones, tablets, eReaders, or computers. Select eBook collections in IEEE Xplore are now available in EPUB format with additional collections to be added.

## Automated Indexing Process

A new automated and improved indexing process that leverages the latest natural language processing and machine learning technologies to enable real-time indexing and enhanced discovery of newly published content.

## Accessibility Enhancements

IEEE Xplore has an ongoing commitment to provide the best possible experience for all users. IEEE accessibility efforts are informed by the Web Content Accessibility Guidelines (WCAG) 2.2. Details on the IEEE level of compliance, along with a listing of recently released and planned fixes, are available within the Accessibility Statement.

# IEL: The Best Value in Your Collection

## IEEE Journals Priced Below the Competition

According to *Library Journal* (April 2025), the average cost of an engineering journal is US\$5,851. But the average cost of an IEEE journal is just US\$1,310.

Year after year, studies prove that IEEE journals are priced well below comparable for-profit journals, and even below the average for comparable not-for-profit journals.

## Subscribe to IEL and Save Even More

The IEEE Electronic Library delivers access to technology's most trusted journals, conference proceedings, and standards—giving you the **research you need at an exceptional value.**

### Value of Individual Titles in IEL

IEEE Conference Proceedings and backfile	US\$1,493,987
IEEE Periodicals and backfile	US\$637,329
IEEE Standards Collection	US\$233,995
IET Conferences and <i>E&amp;T Magazine</i>	US\$22,638
VDE Conferences Collection	US\$12,074
<i>Proceedings of the IEEE</i>	US\$1,630
<i>IEEE Spectrum</i>	US\$599
Total value of all IEL content if purchased separately	US\$2,402,252

**A typical IEL subscription is just a fraction of the total cost!**

Subscribing to all current IEL content separately could cost more than US\$2.4 million per site. Compare that with the standard IEL subscription (single-site price including A&I and backfile) at a fraction of the price\*—and the value of IEL is obvious.

**IEL costs less, includes more content, and provides research that puts you at the forefront of technology.**
